

## Serving Seniors Alliance

- a brief history

*The Serving Seniors Alliance was formed in 2005 by a group of service providers in response to an unmet need: to provide seniors and their families with a resource of trusted professionals—people who are dedicated to serving a unique and very specific sector—our seniors.*

*Our members meet regularly over breakfast to learn, inform, advise, refer, network and, above all, build trust. We are committed to one aim: to serve seniors better. We help each other so we, in turn, can help others.*

## 3rd Annual Serving Seniors' Social

# *Do you know? Where can I find a good, reliable...?*

From its early roots as a simple referral group for service providers to the elderly, Serving Seniors has grown in scope and size in response to the increasing demand by seniors and their families for trusted service providers.

The need to grow and expand began with “Do you know where I can find a good, reliable...?” - and that’s where Serving Seniors can help.

We are now known by families far and wide as a trusted resource for services and education to seniors in HRM. All Serving Seniors members - our businesses and our community partners - are committed to providing a professional level of service and are available for presentations to your group.

Our Community Partners include charities, non-profits, community groups and program providers who directly serve seniors.
